TST50205 is a tabletop machine for a high cross-section range. Thanks to its strong build, it is capable of splicing up to 50mm².

Advantages:

- Cross sections from 0.5mm² to 50mm²
- Extremely stable and safe process
- Automatic calibration of the machine
- Easy operation and maintenance

- Networking with multiple machines

Technical data:

- Generator up to 5000W
- Frequency 20 kHz
- Insert room 17mm x 22 mm

- Cross section up to 50 mm²

With TelsoSplice Telsonic continues to introduce new innovative ultrasonic components for the metal welding industry. The advantages for the end-users and machine builders are always at the forefront of our efforts.
